
Norwegian Special Mission signed a new Contract with Chile DGAC to supply and Automatic Flight Inspection System to be installed on the DGAC Cessna Citation VI and Cessna Citation II. This is the second UNIFIS 3000 for the DGAC.

Norwegian Special Mission (NSM) signed a contract with Chile Dirección General de Aeronáutica Civil (DGAC) to supply an Automatic Flight Inspection Systems. The system will be installed on two of the DGAC flight inspection aircraft. The Cessna Citation VI and the Cessna Citation II. The UNIFIS 3000 will use DGPS-RTK as the primary positioning systems.

This contract is the eight contract in which NSM is installing the **UNIFIS 3000** into a Cessna Citation series aircraft.
